Toward a Sustainable Foundation

Today, we are delighted to stand on the threshold of a new era filled with accomplishments, as we embark on a new chapter brimming with ambition and hope. We continue our work in laying the solid foundation for the Mutaib Bin Abdulaziz Charitable Foundation. This pivotal moment marks the starting point toward broader horizons of giving and positive impact in our community.

We have drawn our vision from the personality of Prince Mutaib bin Abdulaziz – may he rest in peace – who exemplified comprehensive vision and a deep understanding of details. Building on this, we have adopted the concept of «The Science of Giving,» which is our approach to community service; where community work is carried out through a scientific and systematic methodology.

In this report, we document the first year of our journey in the world of institutional charitable work. This year has been full of challenges for the Mutaib bin Abdulaziz Charitable Foundation, but it has also been full of sustainable achievements. We laid the cornerstone for an institution that we aspire to be

a model to follow in sustainable charitable work. Throughout this journey, we have carried with us the questions of sustainability and continuity, especially in light of the rapid growth witnessed in the non-profit sector. We have also focused during the establishment phase on laying a solid foundation for good governance, recognizing that transparency and accountability are the two pillars of the sustainability of our work.

Our primary goal is to achieve a tangible and measurable positive impact on the lives of the widest possible segment of society. To achieve this goal, we work to invest our resources efficiently and strive to build strategic partnerships that ensure the sustainability of our programs and initiatives.

Finally, I would like to thank everyone who contributed to laying the foundation of this institution.

We look forward to continuing our work with dedication and sincerity to establish a sustainable charitable institution that serves our community effectively and efficiently.

May Allah Grant us success.

Will Projects

Will Projects

1. Water Charity for pilgrims and guests of House of Allah

Our watermark for thirty years

Since 1996, the Mabarrat project of water Charity for pilgrims and guests of House of Allah has been and will continue to be the closest to the sponsor's heart and donor, may Allah have mercy on him. Year after year, the project structure has expanded, advanced and branched out within the holy sites, providing, according to the movement of the groups, cold and fresh water in easy locations from which millions of eager and roaring people drink. Until the project's consumption rate reached approximately one million and a quarter liters per day throughout the days of Hajj.

Achievements were embodied in

The amount of water consumed in project networks amounted to approximately 75 million liters of drinking water

Renewing stations for 4M riyals, as contractors' contracts amounted to 7M riyals

Signing a supervision agreement with Kidanah for a period of 10 years and forming a joint committee

We look forward to future prospects for the Mabarrat

An effective committee for effective supervision

Expansion in all around holy sites

Study, review and evaluation of the project

Benefiting from the Mabarrat throughout the year

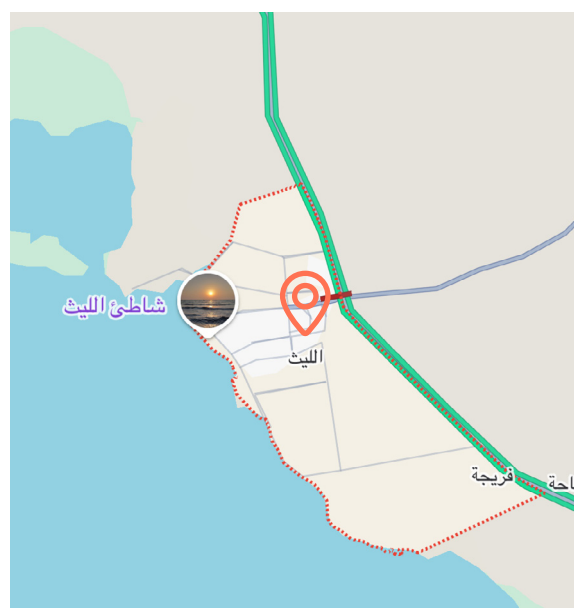

Will Projects

2. Watering Wells

Wadi Thi Waraq well is the most important source of water in a remote valley around Al-Lith city, Al-Wasqa center and Ashqa field. For 43 years, Thi Waraq well has continued to provide a steady and reliable water source for local residents and livestock, expressing its role in reflecting every drop of water from the well in providing commitment to meeting the needs of the population and supporting sustainability in the region.

Daily Consumption (Liters)	Monthly Water Production (Tons)	Category of Beneficiary	Beneficiaries	Governorates
5723 Liters/Day	165 Tons/Month	Inhabitants and Houses	180 of camels and 100 of sheep every day	Al Lith City
5723 Liters/ 2 Day	180 Tons/Month	Livestock Watering	50 Person	Alwasaqa
16 Liters/Day/Person	12 Tons/Tank every 2 days		12 houses every 2 days	Alshaqah Field
